

# SRIVATHSAV KYATHAM

## Full stack Developer

E 91 8317667454    2023.srivathsavk@isu.ac.in    https://git hub.com/srivat hsav999    Navi Mumbai, India

### SUMMARY

B.Tech Computer Science student with a strong foundation in programming and web development. I primarily work with the MERN stack and am familiar with JavaScript, C , Java, and Golang. Gained hands-on experience through academic projects, hackathons, open-source contributions, and solving real-world problems. I actively collaborate with developers and continuously learn best practices in software development. A quick learner and team player, eager to apply my skills and grow in a practical, real-world work environment.

### EDUCATION

#### B.Tech in Computer Science and Engineering

ITM Skills university

2023 2027    Kharghar, Navi Mumbai

GPA

7.53 / 10

#### High School (11th-12th)

Model college

2021 2023    Mancherial, India

GPA

7.34 / 10

#### Secondary School (10th)

MJPTBCWR

2020 2021    Mancherial, India

GPA

10 / 10

### EXPERIENCE

#### Full Stack Developer

Manage Money    Personal Project

Built a comprehensive digital banking platform for small businesses to manage cash flow, payments, and financial insights using a modern full-stack architecture.

- Created a secure backend using Node.js and Express, integrating JWT authentication, and role-based access control for enhanced security.
- Implemented RESTful APIs and integrated MongoDB for storing transactional data, user accounts, and reports.
- Designed and developed a responsive, user-friendly dashboard using React for real-time financial insights.
- Enabled seamless banking operations such as Receivables, Payables, and Insurance management.

#### Backend Developer

Grabon    Academic Assignment

Developed a Swiggy/Zomato-inspired food delivery web application where users can browse restaurants and place orders.

- Built a robust backend with Node.js and Express, handling user authentication, restaurant data, and order management.
- Integrated MongoDB for structured storage of users, restaurants, dishes, and orders.
- Implemented JWT-based login system, secure session handling, and route protection for both users and admins.
- Added cart functionality, search filters, and sorting by price, rating, and category.

#### Open Source contributor

Flamenco – Blender Foundation

https://projects.blender.org/Srivathsav-Kyatham?tab=activity

Contributed to Flamenco, Blender's open-source render management system.

- Improved the system information retrieval for Darwin (https://projects.blender.org/studio/flamenco/pulls/104361)

### SKILLS

#### Client-Side

HTML CSS

JS

Angular

React Vue

Redux

Javascript

Bootstrap

#### Server-side

ExpressJs

MySQL

NodeJS

Redis

AWS

MongoDB

Golang

#### Development & Operations

GitHub

Docker

Puppeteer

Firebase

Vercel

Postman

Axios

GraphQL

REST APIs

OpenAPI

Git

### PROJECTS

#### Manage-money

https://git hub.com/srivat hsav999/manage-money

Digital banking platform for small businesses to manage cash flow, payments, and financial insights using a modern full-stack architecture.

- Created a secure backend using Node.js and Express, integrating JWT authentication
- Built RESTful APIs and used MongoDB for storing accounts, transactions, and reports.

### STRENGTHS

#### Teamwork and Collaboration

Ability to collaborate seamlessly with peers and contribute effectively to team success

#### Problem-Solving

Strong problem-solving capabilities

#### Adaptability

Adaptable to new situations and environments

#### Analytical and Critical Thinking

Ability to think critically and analyze information
